

An Introduction to The Charlton Marshall History Project

On August 22nd 2011 I published 'Charlton Marshall. Aspects of our Story'.

Lots of reminiscences, pictures and historical information came to light. Not all of it went into the book but none has been discarded and it will all be safely retained and deposited for use by future researchers or writers.

I am still collecting information as it comes to light, and if you have any pictures, documents or reminiscences about people or events up to about 1980, or parish magazines before 1991 to fill gaps in our set, please click on the link to contact me by email. Thank you.
